WE DESIGN AND MANUFACTURE PROFESSIONAL A/V EXPERIENCES WITH ECOLOGICAL AWARENESS

Founded in Barcelona in 1965, ECLER is a Spanish manufacturer specialized in hardware and software for professional audio and video solutions. All ECLER products are designed to deliver a long, solid and failure-free working life, even in extreme use conditions, thereby guaranteeing low MTBF (Mean Time Between Failures) ratios. We individually test 100% of the products manufactured in our facilities, avoiding the typical random samples testing procedures in the industry. This leads us to an entirely TRUSTWORTHY manufacturing quality. ECLER is an ISO 9001:2015 certified company. EclerAcoustics and Ecler Video were created in 2019 to optimize our sound experience and create an audiovisual experience that captivates the user.

BREAKFAST is a Brooklyn-based robotic kinetic art studio run by artists Andrew Zolty and Mattias Gunneras. The studio, opened in 2009, focuses on creating software- and hardware-driven artwork with a vision of the future that connects viewers to faraway places through interactive experiences and tell powerful stories about how our world changes rapidly.

The studio employs a unique combination of computer science, mechanical engineering, and playful and emotionally impactful aesthetics to invite audiences to reflect on the relationship between the physical, the digital, the global, and the intimate, as well as the evolving relationships between human bodies and technological innovation in the information age.
